

In the growing Away From Home market, Livi® is well-known in world-class establishments across the globe, ranging from hospitals to resorts, restaurants to cafes, government institutions, corporate offices and schools. Livi®'s quality and scope of products has made it an ideal choice for establishments that value flexibility and cost effectiveness without compromising on quality and hygiene. Currently, Livi® is distributed in 37 countries across 5 continents. Livi® has maintained a common standard of excellence that places it in the upper echelons of its industry.

COMPANY PROFILE

Solaris Paper Pty Ltd, an Australian operated and managed company, distributes high quality toilet and tissue paper products throughout the Australian region. As a socially, economically and environmentally responsible company, we adhere to stringent Australian and international environmental laws, only sourcing our fibre from internationally certified suppliers.

We are committed to purchasing wood fibre for pulp making operations from sustainably managed forestry sources, which conserve areas of natural habitat and respect the rights of local communities. To implement this commitment we will:

- Ensure that wood suppliers maintain compliance with all relevant regional, national and international regulations for sustainable forestry and land use management.
- Ensure that a multistage environmental assessment process is conducted prior to plantation development. The environmental assessment process will meet or exceed the standard required by national law.
- Ensure that wood is properly checked and verified as to legal origin and chain of custody before it enters the mills.

LUXURY LOTION FACIAL TISSUE TO SOFT
& SCENTED 3PLY TOILET TISSUE FOR THE
DISCERNING USER. IMPRESSA CREATES A
LASTING PERSONAL IMPRESSION.

EVERYDAY EXECUTIVE QUALITY FROM

SUSTAINABILITY

Solaris Paper and its strategic supply partner Asia Pulp and Paper (APP) are committed to promoting sustainable development which is economically, socially and environmentally responsible.

We have an economic responsibility to our key stakeholders to manage and develop our business. We will do this by providing sustainable and innovative bathroom solutions that deliver excellent quality and value.

We have a social responsibility to the various communities in where we operate. In Australia, we are making a positive contribution to our local community by supporting a range of organisations including our local school, business associations and others.

In April 2014, APP announced an initiative to restore and support the conservation of one million hectares of rainforest across Indonesia – an area more than four times the size of the Australian Capital Territory (ACT). The initiative was developed with input from a number of stakeholders and sets a new standard in the protection of the world's valuable forests and ensures the future protection of endangered species.

This announcement followed the launch of APP's Forest Conservation Policy (FCP) in February 2013, which saw a large scale transformation of APP's forestry and pulpwood operations. This is important, not only for the sustainability of Solaris Paper products, but for the preservation of natural forests and the communities that live within and around them.

APP's Forest Conservation Policy in Numbers

CHAIN OF CUSTODY

ENVIRONMENTAL RESPONSIBILITY IS CRITICAL TO OUR BUSINESS. OUR SYDNEY PLANT HAS PEFC (PROGRAMME FOR THE ENDORSEMENT OF FOREST CERTIFICATION) CHAIN OF CUSTODY. THIS CARRIES A RESPONSIBILITY TO ENSURE 100% OF OUR RAW MATERIALS ARE EITHER PEFC OR CONTROLLED SOURCES UNDER PEFC GUIDELINES. SOLARIS PAPER CONTINUES TO WORK TOWARDS INCREASING THE PROPORTION OF CONTROLLED SOURCES INTO PEFC CERTIFIED MATERIAL.

For more information on PEFC Chain of Custody visit: www.pefc.org/standards/chain-of-custody

Solaris Paper requires its suppliers of jumbo rolls to complete a Supplier Evaluation and Risk Assessment (SERA). The purpose of the SERA is to ensure that the jumbo rolls used by Solaris Paper have been produced from sources that are sustainable and comply with at least one of the following certification/verification schemes.

- PEFC Chain of Custody 'ensures that claims about products originating in sustainably managed forests are credible and verifiable throughout the whole supply chain.'
- Controlled Sources under PEFC Guidelines – verification that the product has originated from a source that has been legally verified according to requirements under PEFC guidelines.
- The Indonesian Ecolabelling Institute (LEI) Chain of Custody certifies that the product is produced from a source that is managed based on environmental values, economical principles, and social norms.
- Timber Legality & Traceability Verification (TLTV) – an independent third party verification that 'assures forest management companies as well as everyone else working within the timber supply chain that timber products are produced in compliance with the relevant legality and chain of custody criteria.'

The SERA systems implemented by Solaris Paper are audited annually by SGS Australia.

Visit www.solarispaper.com.au/sustainability to find out more about how Solaris Paper is working to promote sustainable tissue paper products.
